

PET PHARMACOKINETICS COURSE

Satellite Education Course of BRAIN & BRAIN PET 2019

July 1-3, 2019

Congress Center in ACT CITY Hamamatsu

https://www.actcity.jp/pdf/actcity_pamphlet.pdf

COURSE HISTORY

The PET Pharmacokinetics Course has been held for most years, since the early 1990s. Originally, the meeting was held in Europe, first in Germany, then for several years at the Paul Scherrer Institut in Switzerland, hosted by Nico Leenders. Starting in conjunction with Brain99 in Copenhagen, the course has moved to different sites (hosted in the city of one of the tutors), always being held in close proximity either to the Brain/Brain PET meetings, the Neuro Receptor Mapping (or NRM) meetings, or occasionally an IEEE or other related meeting.

TUTORS

Olivier Barret - New Haven
Richard Carson - New Haven
Paolo Zanotti Fregonara - Houston
Roger Gunn - London
Gitte Moos Knudsen - Copenhagen
Adriaan Lammertsma - Amsterdam
Mark Lubberink - Uppsala
Mark Normandin - Boston
Julie Price - Boston
